Is the Monterey County Civil Judicial System Racketeered by Judges and Local Attorneys Against You?

The Monterey Story

How does an event from 16 years ago have anything to do with a case against a real estate firm here in Monterey? *

Why did local Monterey attorneys say that I should be forced to go to trial without an attorney?

Why did Judge Robert O'Farrell and Judge Richard Silver allow my Monterey attorney to abandon me 30 days prior to the trial and then deny me a continuance to get another attorney?

Well, I had told the Fresno story to a local Monterey attorney I retained and described the similarities of an incident involving a large local Monterey law firm and how I believed they instructed their clients to cancel escrow on me to avoid being caught perpetrating a real estate fraud..

She told me that the local law firm was well known for making large political contributions to Judges' campaigns, their members were part of a "Good Old Boys' Club" of the local judicial community and it very well could be an uphill battle with them.

Little did I know at the time that she was also part of that "Good Old Boys' Club" (albeit an insignificant member), and looked to me as a sacrificial lamb that she could later sell-out to get herself higher on the food chain so to speak.

However, she, along with the local Good Old Boys didn't realize that I was actually a sleeping Dragon, not a sacrificial lamb, and after 16 years they awakened me. I have grown stronger, not weaker. It is now fire breathing time, but on a much larger scale.

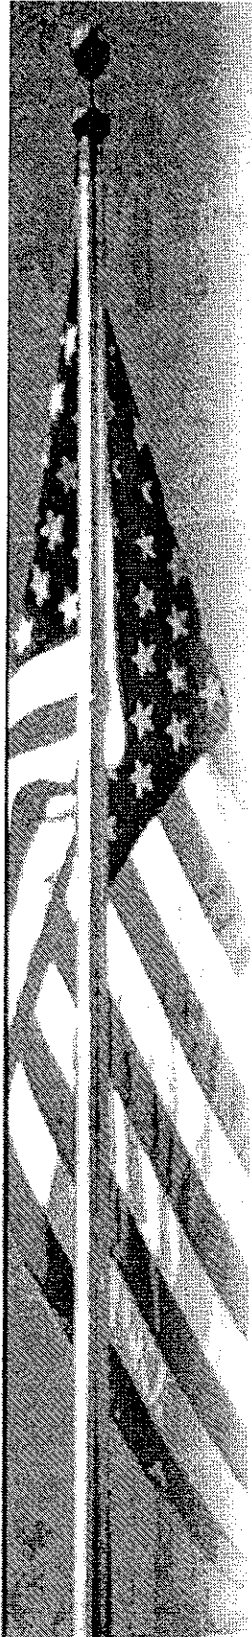

I now have four children and have lived here in Monterey for 11 years. I owe it to my children and my country to try and stop this nonsense that goes unchecked.

There is a story unfolding in the local Monterey courts. Several Judges and attorneys are feeling extremely uncomfortable because I have forced them to put some incredible rulings on record. The Good Old Boys are betting I won't be able to get the story out, or that no one will really care to do anything because they believe, like the Good Old Boys do, that the lay person has no chance against them and the courts and laws are under the Judges and attorneys' control. I'm out to prove them wrong, but the story cannot be only about me. It has to be about others that have had similar experiences and I need to hear from you.

A local prominent Monterey County newspaper says that possible judicial corruption is too complicated to explain and they don't have the resources to research it.

Tell me *the Good, the Bad, and the Ugly* of what has happened to you. Let those civil judicial officers that have treated you unjustly, be made accountable and be given an awakening call that they have gone too far.
