Re: MAR125367 & A Few Other Matters

Dear Mr. McKee:

I write this letter as a meet and confer concerning my inquiry as to if you or your offices are ghost writing documents for, or representing Mr. Terry Spitz of the Monterey County District attorneys office in the above referenced action which he was sued in his personal capacity.

Also, so as to not waste valuable natural resources such as paper, please let me know if you have contacted the Attorney General's Office concerning the complaint of Forte vs. Robert O'Farrell, et al, in which you are a named defendant, and if they are going to represent the Office of the Monterey County Counsel.

One additional matter, which was brought to my attention by Mr. Spitz's answer, do you think I, as a citizen, should have done anything more than I have done in bringing to your attention, and therefore the county's attention, my claim of damages by public officials and agencies of the county?

If so, would you tell me what that it, or is it supposed to be some type of a guessing game?

Thank you and so that this does not get to be an attenuated matter please respond to me by January 7th, 2005, at 4:00PM. If I had not heard from you I will take it up with the court.

Sincerely,

Gene Forte

Cc: Mr. Spitz
